DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is lack of antecedent basis for the limitations "the upper ends" and "the lower ends".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Pin-Hung et al.

Regarding claim 1, Pin Hung et al teaches in the figures a body portion, headn and tail, and four spring legs (fig. 1 and 3), an eccentrically mounted weight (32 and 34), a power switch controlled motor (9) and a drive assembly (fig. 4).

Regarding claim 2, Pin Hung further teaches the spring legs having direction pads (91, 95).

Art Unit: 3712

Regarding claim 8, Ping Hung further teaches a frame assembly (fig.4) supports the eccentrically mounted weight and power operated motor and drive assembly and the spring legs interconnected to the frame assembly (fig.4).

Allowable Subject Matter

Claim 3-7 and 10-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cooper teaches a game with bucking animal. Cheng teaches a spring-animated toy figure. Pracas teaches an animated doll. Roberts teaches an infant child chair. Brodrib teaches a mountable animal toy. Convertine teaches a toy figure.
